During spring break a group of OCS students, teachers, family members and friends spent nine days in France. They visited Nice, Provence and the French Riviera, and then took the high speed train to Paris where they toured the city, visited the Louvre museum, shopped and went out to the Palace of Versailles. They also took a fencing lesson, learned how perfume is made, and dressed up as members of the three estates to better understand the causes of the French Revolution. Everyone enjoyed the trip even though there were problems with mislaid luggage!!
